**MuleSoft Certified Developer - II**

## **PROFFESIONAL SUMMARY**

- ✓ Having 8+ years of experience in Software Development Life Cycle of which 5+ yearsof Experience into MuleSoft Anypoint Platform (Mule ESB, RAML 0.8,1.0)
- ✓ Experience in MuleSoft Anypoint Platform, Enterprise Service Bus and API management.
- ✓ Having experience in designing Flows, Sub Flows, and Exception handling strategies, Data Weave transformation and Mule Expression Language (MEL).
- ✓ Involved in cloudhub, Onprem and RTF deployment models, managed cloud deplyments and APIs.
- ✓ Exposure to Mule Anypoint platform components (Anypoint studio, Anypoint API designer, Anypoint API manager, Anypoint connectors, Anypoint API portal).
- ✓ Developed enterprise services using RAML in Mule, REST based APIs, SOAP Web Services and use of different mule connectors (File connector, Http/Https, SAP, DB connectors). Hands on experience in Rest/ SOAP web services, ESB, Anypoint MQ.
- ✓ Developing Mule ESB projects for the services with synchronous and asynchronous Mule flows.
- ✓ Implemented flows using Anypoint studio based on the client requirements.
- ✓ Hands on experience in writing the Dataweave language and Mule Expression Language (MEL) to access payload data,properties and variables of Mule Message Flow.
- ✓ Good understanding of Software Development Life Cycle (SDLC) process in the areas of analysis, design, implementation and testing of software applications using Mule ESB technologies.
- ✓ Experience working in an agile development environment.

## **TECHNICAL SKILLS**

<b>INTEGRATION TECHNOLOGY</b>	Mule ESB (3.x and 4.x)
<b>IDE</b>	Anypoint Studio, CloudHub, Anypoint Platform, Dataweave
<b>Data Bases</b>	My SQL, Oracle, Teradata ,MongoDB, Salesforce
<b>Web Services</b>	SOAP, REST
<b>Markup Languages</b>	HTML, XML, CSV and JSON
<b>Operating Systems</b>	Windows, Unix, Linux
<b>Other Tools</b>	Service Now, Postman, On Demand, MoveIT, Datapower
<b>Version Control</b>	GIT Hub, Azure Devops

## Work Experience:

Organization	Designation	From Duration To	
Ovation Services Pvt Ltd	Engineer	01/08/2016	29/04/2022
iBridge Techsoft pvt ltd	Software developer	24/08/2022	28/06/2023
PRIMUS Global Technologies Pvt Ltd (Client: Accenture)	Mulesoft Developer	29/06/2023	22/01/2024
IBM (Client: Truist)	Application Developer	23/01/2024	Till Date

## Education Details:

Completed BTech in NallaMalla Reddy Engineering College from JNTU University in 2015.

## Project-1: IBM

Client : TRUIST  
Role : Application Developer  
Environment: JDK, Any point Studio, Mule Runtime 4.X, RAML 1.0, RTF, AWS, TibcoToMule Migration, GitLab, CICD pipeline

**Project Description:** The Project involves developing and managing APIs for banking system to enhance digital transformation and enables seamless integration between backend truist applications, client applications, and consumer applications. Using Mulesoft as Integration platform, the solution implements secure and scalable API proxies hosted on Cloudhub and RTF while backend services are deployed in RTF and On-premises servers.

## Responsibilities:

- **API Management and Integration:** Create, manage and deploy APIs to expose backend.
- **Onboarding Consumer :** Integrating external/internal consumers with existing applications and API proxies.
- **Developing APIs & Proxies:** Creating and enhancing APIs, proxies and integration solutions as per business requirements.
- **Working in Agile Sprints :** follow a 2-week sprint cycle, where stories are assigned via Rally.
- **Ensuring Compliance & Performance:** Developing APIs that adhere to security and compliance standards while ensuring high availability.

## **Project-2: Working to Accenture client.**

Client : AT&T  
Role : MuleSoft Developer  
Environment: JDK, Any point Studio, Mule Runtime 4.X, RAML 1.0, RTF, MongoDB, Salesforce, Salesforce (LWC).

**Project Description:** AT&T is a provider of telecommunications, media, and technology services. The company offers wireless communications, data/broadband and internet services, local and long-distance telephone services, telecommunications equipment, managed networking, and wholesale services.

### **Responsibilities:**

- Created Mule Flows using End Point Connectors & Components using Mule ESB to integrate client/server systems.
- Implemented integration flows using Mule Any point Studio to connect to REST and SOAP.
- Developing flows / orchestrations for integrating the components written on top of different internal platforms using Mule ESB and HTTP connectors.
- Experience in integrating of different systems that includes Data Base.
- Involved in Transformations using Data Weave to transform data from one format to another format using Mule ESB.
- Preparing API led connectivity architecture for a Mobility API's.
- Worked on Ordering API's, creating contract, LOA, Billing, sending document to eSign, Inserting customer details to ASF.
- Working with salesforce using VIP connection in MuleSoft. API's are used as frontend and Salesforce is used as UI.
- Working on Object Store to reuse the data in different API's and Layers, Async process of data and entire document generation in async process.
- Implemented cleaning up the entire object store and maintaining efficiency of space.

**Environment:** Mule ESB 4.X, Any point Studio 7.x, SOAP/Restful Web services, XML, API Manager, Any point Platform, RTF, GIT, Postman.

### **Project-3 : iBridge TechSoft Pvt Ltd**

Client : Hospital Corporation Of America (HCA)  
Role : MuleSoft Developer  
Environment: JDK, Any point Studio, Mule Runtime 4.X, RAML 1.0, On-premises, IIBDataPower, Move It Automation, Xfer Move It, On Demand Tool

**Project Description: IIB to Mule soft Migration,** HCA is having group of hospitals in America locations, Among HCA, Health Trust is dealing GPO and SC services, these services include as payments, patient records, Invoices, daily tracking of Pharmaceuticals, Refunds reports and supply of necessary needs.

#### **Responsibilities:**

- Created Mule Flows using End Point Connectors & Components using Mule ESB to integrate client/server systems.
- Implemented integration flows using Mule Any point Studio to connect to REST, SOAP service, Oracle Database.
- Developing flows / orchestrations for integrating the components written on top of different internal platforms using Mule ESB and IBM MQ.
- Experience in integrating of different systems that includes Data Base.
- Integrated flows in pub-sub model, synchronous and Asynchronous using for each and scatter gather components.
- Worked with Mule Soft Any point API Platform to migrate from IIB Integration tool.
- Worked with Move IT Automation while migrating IIB to MuleSoft, This issued as common platform transfer files, it is a common platform between client and MuleSoft servers.
- Worked with DataPower for deployment and certificates upload.
- Worked as backup team lead role for operational resource team.

**Environment:** Mule ESB 4.X, Any point Studio 7.x, SOAP/Restful Web services, XML, API Manager, Any point Platform, Cloud Hub, GIT, Postman, IIB Tool.
